List of changes

Version: 6.6.8

TachoScan Control

List of changes

© 2002 - 2022 INELO Polska Sp. z o.o. All Rights Reserved

New driver card

(menu: Data -> Import data from file)

- When importing readings with the **Upon loading digital data save each driver/vehicle as new** option enabled, the program will not add a new driver if they are already in the database but without the card number. The program will recognize the drivers and complete the driver card number.

Compare driving time and distance on the map

(menu: Reports -> Compare driving time and distance on the map)

- After clicking the point on the map, it will be highlighted in the list on the left and set as the first one.

Infringement of too long working time without a break

(menu: Reports -> Weekly chart i Monthly chart)

- Marking the infringement of too long working time without a break has been introduced on the weekly and monthly charts [▲▲▲▲▲▲▲▲▲▲].

Daylight saving time

- The dates for the summer/winter time change until 2026 have been added.
