Drivers

(menu: Control -> New control)

- Drivers added while creating a roadside check will be saved as **active**.

Pairing sensors

(menu: Preview window of data from the digital tachograph / smart tachograph -> General and technical data -> Pairing sensors)

- In the **Select pairing by date** field, marking dates in red has been introduced, in case the **Sensor serial number** was changed.

Data summary printout

(menu: Data -> Get -> Open from a file)

- Marking the certificates in color (green and red) has been introduced on the data summary printout.

Activities, events and faults in the table

(menu: Preview window of data from the digital tachograph / smart tachograph -> Activities, events and faults in the table)

- A possibility to choose which GNSS points will be shown on the map has been added for the **Show in the map** button. Two options have been added (visible only for smart tachographs):
 - **Show all,**
 - **Show selected.**

Infringements and manipulations

(menu: Reports -> Infringements and manipulations)

- When switching from the **Manipulation warnings** tab to the **Preview window of data from the digital tachograph / smart tachograph** by double-clicking on a chosen item, the item that has been clicked on the list of warnings and manipulations will be automatically highlighted in the window.

Statement on the removal or breakage of a tachograph seal

(menu: Reports -> Statement on the removal or breakage of a tachograph seal)

- A new report **Statement on the removal or breakage of a tachograph seal** has been added.

Preview window of data from the digital tachograph / smart tachograph

(menu: Preview window of data from the digital tachograph / smart tachograph)

- A possibility of copying the contents of specific fields in the tabs: Events and faults, Activities, events and faults in the table, Card insertions and withdrawals, Company locks and last download and List of controls has been added.
 - A new option **Copy to clipboard** has been added under the right mouse button.

New language version of the program

- Finnish language version of the program has been added.

(menu: Settings -> Program settings)

- A possibility of choosing the Finnish language has been added (**Select program language and tariff**).

Logs

(menu: Help -> Logs)

- An information on the drivers' personal data has been added in the program logs. Data will be saved in the **PersonalDataChange.txt** file while adding, editing and deleting drivers.

New section in settings

(menu: Settings -> Program settings)

- A new section **Web settings** has been added in the Program settings.
 - A new option **Allow access to:** has been added. It allows to enable/disable showing items: Google maps, News and Remote help in the main manu and toolbar.
 - The option **Automatically download the update** has been moved to this section.
