Infringements

(menu: Reports -> Infringements and manipulations)

- In the infringement report, infringements under Art. 12 are now written in black.
- Amendments to the penalty have been made for companies for infringements of regular weekly rest in a vehicle.

Risk analysis of loss of good repute

(menu: Reports -> Risk analysis of loss of good repute)

- Formula for calculating the risk rating of loss of good reputation in accordance with commission regulation (eu) 2022/695. This is the so-called company rating it takes into account:
 - the number, gravity and frequency of occurrence of infringements
 - the results of controls where no infringement has been detected
 - using of the smart tachographs by a road transport undertakings,

According to this formula, when calculating the degree of risk rating the results of all inspections, both at the roadside and at its premises, concluded with and without findings of infringements, carried out by the Road Transport Inspection will be taken into account

Infringements confirmed by a final decision, a final fine or a decision imposing a penalty in period of two years will be taken into account, concerning the occurrence of infringements regarding driving time, mandatory breaks and rest time for drivers, including the use of tachographs.

DSRC

(menu: Settings -> Analysis settings -> DSRC)

- Added the ability to highlight the last received DSRC package by adding the option *Switch automatically to a new car after reading data from DSRC*.
